SUMMARY

BS Information Technology student seeking an internship to contribute to web application development. Built React and TypeScript interfaces with HTML, CSS, JavaScript, REST API integrations, authentication, and database-backed workflows across academic and personal projects. Uses Git and works across frontend and backend technologies including ASP.NET Core, Node.js, and Laravel.

TECHNICAL SKILLS

Frontend: HTML5 · CSS3 · JavaScript · TypeScript · React · Next.js · Tailwind CSS · Inertia.js

Web & Integration: Responsive web interfaces · reusable components · REST APIs · Axios · JSON · React Router

Backend & Data: ASP.NET Core · Node.js · Express · Laravel · PostgreSQL · MySQL · SQL Server · Dapper · Entity Framework Core

Tools & Other: Git · Docker · JWT · Socket.io · Laravel Reverb · Tesseract.js

PROJECTS

CentraLog | Asset Tracking System **2026–Present**

React, TypeScript, ASP.NET Core, MySQL, Entity Framework Core | Case Study

- Built asset registration, custody-transfer, maintenance, and audit workflows, including **QR-code labels** and **asset dashboards**.
- Implemented **JWT authentication** and **five-role access control**; used **database transactions** for bulk asset transfers.

DormFix | Dormitory Management System **2025–Present**

React, TypeScript, Tailwind CSS, Node.js, Express, SQL Server, Socket.io | Case Study

- Developed **landlord and tenant workflows** for onboarding, room allocation, payment review, maintenance requests, and account management.
- Integrated **REST endpoints**, file uploads, and **Socket.io messaging**; built **role-based navigation** and structured forms and dashboards.
- Used **SQL transactions** for room-capacity consistency and added **OCR-assisted payment review** with Tesseract.js and Ollama.

PharmaLink | Pharmacy POS & Inventory System **2025–Present**

React, TypeScript, ASP.NET Core, PostgreSQL, Dapper | Case Study

- Built **point-of-sale**, inventory, authentication, and dashboard features with **protected Administrator and Pharmacist routes**.
- Integrated frontend workflows with **REST APIs**; created views for revenue, **low-stock alerts**, and expiring inventory.
- Used **PostgreSQL transactions** to coordinate sales, line items, and stock deductions.

IsdaLog | Catch Logging & Auction Platform **2026–Present**

Laravel, **React, Inertia.js**, Node.js, Laravel Reverb | Case Study

- Built catch-logging and **live-auction workflows**; integrated **Laravel Reverb** to broadcast bid updates.
- Added a **Telegram bot** workflow for **photo-based catch classification** using Gemini and a local Ollama fallback, plus weather and delivery-verification features.

EDUCATION

Bachelor of Science in Information Technology **Expected August 2027**

Dipolog Medical Center Incorporated, Dipolog City
